See Summary of Record of Interview requirements on reverse side or on attached sheet.

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

Art Unit: 3749

The applicant argued that with respect to the Sherril reference that there is no alternating pattern and the first coil and the second coil do not face each other across the plate. Regarding Drews the applicant argues that the reference does not cross as an alternating pattern and there is no intermingling of the coils. . Moreover, the applicant indicated that the reference does not operate to provide an even distribution of heat in the reference. The examiner stated he would consider the applicant's arguments.
